

Physical Education and Sports Premium Statement

After a hugely successful Olympics, the government has decided to provide all schools with extra funding to increase enrichment, enjoyment and opportunities for all children.

Here at Four Acres we have decided to use this funding wisely by employing a specialist P.E coach to work with all children and staff to ensure that high quality PE is being taught across the school. We also aim to improve the fundamental movement skills of all children and develop pupils' resilience through PE and sport. The coach will plan all lessons in detail with Mr Saunders and all lessons will be fun, engaging but also challenging.

Furthermore, the funding will also be used to provide pupils with the opportunity to take up new and exciting sports through extra-curricular activities. Foundation Stage and Key Stage One pupils will have more opportunity to take part in extra-curricular sport. Over 50% of these clubs will be paid for by the school, providing all parents with a reduced rate.

Once again the school has joined the Ashton School Sports Partnership and we will be competing in a variety of sports against other teams. After another successful year of competing, we aim to continue to compete and perform to the best of our ability. Below is a link to find out more about what the partnership has to offer and the competitions which we will be competing in.
